Minerva Fire & Security Ltd ENVIRONMENTAL POLICY

1.0 Policy Statement

The Company is committed to identifying and putting actions in place to ensure compliance with all applicable environmental legislation and any other applicable regulations including customer specific requirements.

We will periodically review the aspects and impacts that our operations have on the environment and will take appropriate actions to reduce pollution and improve environmental performance.

Under our environmental programme the Company has committed to:

- Measure environmental performance against pre-defined environmental targets.
- Reduce pollution, waste and avoidance of environmental incidents.
- Install efficient equipment that complies with environmental legislation
- Provide appropriate environmental awareness training to staff and stakeholders
- Maintain and environmental programme which is conformant to ISO 14001:2015

Copies of this Environmental Policy will be made available to interested parties including the general public on direct request to the Operations Director.

2.0 Scope

- 2.1 The provision of an Environmental Management System is in accordance with the requirements of BS EN ISO 14001:2015 as applied to the Design, Installation and Maintenance of Electronic Fire and Security Systems. The agreed codes of practice and relevant product standards shall therefore be as defined in the compatible NSI Gold Scheme.
- 2.2 Minerva's business activities involve office-based work and off-site system installations and maintenance.
- 2.3 This policy and the associated documents should be read and practiced by all directly employed staff and sub-contracted suppliers of services appointed by Minerva.

3.0 Aims and Objectives

- 3.1 This policy and associated procedural document aim to provide staff and sub-contracted suppliers with guidance on aspect of Minerva's Environmental Management programme.
- 3.2 The nature of our work has some contribution to managing environmental issues which may cover the procurement of our hardware materials for the purpose of system installation, the environmental impact of installation process and introducing equipment's to buildings (eg. impact on habitat), the carbon emission stem from transportation of goods and business travel, the use of office building in respect to energy efficiencies and the procurement and use of environmentally friendly product such as office furniture, equipment, sundries and waste management.
- 3.3 Significant environmental aspects shall be identified by carrying out on-going environmental review and the senior management team in conjunction with individual process owners shall then agree appropriate objectives and targets that relate to the significant aspects that Minerva can control or influence. Progress against agreed objectives and targets shall then be presented for review at regular management review meetings and any changes to the defined objectives and targets agreed.

Minerva Fire & Security Ltd ENVIRONMENTAL POLICY

CP 06

- 3.4 Minerva commits to identify and comply with all appropriate legal requirements. The overarching themes of the environmental system will include include:
 - Sustainable development and protecting the environment
 - Community involvement and regeneration
